Midea FreshDry Dehumidifier Air Purifier

An efficient and convenient dehumidifying & air purifying solution for a healthier home.

Feature

- Dual Protection, Healthier Solution
- Changeable H13 HEPA Filter to remove 99.9% of air pollutants and other harmful substances, effectively capturing micro dust less than 0.3μm.
- Minimise noise and maximise comfort by optimising the refrigeration and air duct systems.
- This Dehumidifier uses a reciprocating compressor with less vibration, which can effectively reduce noise.
- Automatically control room humidity in a comfortable range of 45%-55% according to room temperature, which inhibits bacteria growth.
- If the unit breaks off unexpectedly due to the power cut, it will restart with the previous function setting automatically when the power resumes.
- WIFI APP Control - smart health control and monitoring

Specification

- Moisture removal capacity: - 12L/Day (30°C, 80% RH) - 7L/day (27°C, 60% RH)
- Water Tank Volume: 1.6L
- Application Area: 20 - 35 m2
- Refrigerant type: R290
- Max. Input consumption: 380W

- Net/Gross Weight: 12kg/13kg
- Product Size (W x D x H): 334x224x441mm
- Package Size (L x W x H): 360x253x522mm
